

GLOBAL GROWTH OF REGULATIONS

If there's one thing for certain in life it's that regulations keep on growing!

Here at Compliance & Risks we help companies monitor and manage regulations, standards and requirements for a cleaner, safer and better world. Tracking new and changing legislation in over 150 countries, we know the challenges our clients face in dealing with the ever-increasing volume. The following charts show the rising numbers by both subject and region.

We're happy for you to use these graphs, once Compliance & Risks and C2P are acknowledged as the source.
