## Training Opportunities

✔ **Included**

Embark on a transformative learning journey with our *complimentary* Starter Training Package (STP). This comprehensive program will equip your team with the essential skills to navigate from basic scope to advanced capabilities. From mastering regulatory alert management to seamlessly handling requirements & evidence, our training empowers your team every step of the way.

✔ **Optional**

Elevate your expertise with our three additional Training Packages, designed to propel teams who are already familiar with C2P towards even greater heights. Whether you're seeking a refresher or aiming to optimize your platform utilization, these courses are tailored to meet your specific needs. As an added bonus, the Workflow course includes an in-depth analysis of your current C2P efficiency, accompanied by personalized recommendations for improvement.

# Expert-led Learning/Training Packages

### Starter Training Package (STP)
### - Included -

- ✓ You get this as part of your subscription.

- ✓ Up to four 1-hour sessions

- ✓ From the very basic to the most advanced capabilities.

- ✓ Sessions will start within 30 days (and end within 60 days) of when contract goes into effect.

## Additional Training

We know there are reasons why you need to go above and beyond the sessions in our starter package. We got you covered:

### Basic Refresher Training

Your team has been using C2P for some time, but you feel more consistent adoption is needed . Try our basic course refresher ($1,200). We will make sure everyone gets a fresh reboot and their productivity is raised.

### Advanced Training Course

Your team has been using C2P consistently for some time, but they feel they are still not getting all of the value. We offer an advanced course ($1,200) that will review how your team can really go above and beyond the basics and start producing more insight faster.

### Workflow Training Course

Your team takes advantage of the full suite of features and functionalities. But you are not convinced our solution is well embedded in your organization's compliance process. We offer a workflow session ($2,000) to sync them up.

For all courses, the number of attendees is unlimited and recordings will be made available. We offer a 60-day window to complete the course once the contract goes into effect.
